

CCL FLYER FOR CATALOG

TITLE: TOOLS TO HELP GRIEVING CHILDREN AND FAMILIES		CLASS ID# 241491
Description:	The death of a loved one can create a time of chaos and confusion in families. For children, the death of a parent is particularly difficult and stressful. This workshop will focus on helping professionals understand the tasks and the cycle of grief for children and adults. The presenters will provide professionals with tools to support grieving children and adults.	
Learning Objectives:	Participants will: <ol style="list-style-type: none"> 1. Learn the tasks of grieving. 2. Learn the cycle of grief and its ongoing impact on families. 3. Learn how children grieve at different ages. 4. Learn ways to support parents in their own grief as they help their children. 5. Learn crafts and other activities to support grieving children and their families. 	
Format:	The workshop will be interactive. Presenters will lecture, lead discussions and facilitate group exercises.	
Target Audience:	This workshop is for social workers, nurses, doctors and others who want information and tools to work with children and adults who are grieving
